1

UNPACK + GLOVES

- Remove the shirt from its packaging and unpack the kit pieces.
- Put on gloves before touching dye or the shirt.

2

FILL DYE BOTTLES

- Add warm water to each dye bottle up to the fill line.
- City/Tap water is Best.
- DO NOT USE WELL WATER.

3

CAP + SHAKE

- Replace each cap tightly.
- Shake gently until the dye powder is fully dissolved.

4

DYE THE SHIRT

- Lay the shirt on a covered, dye-safe surface.
- Apply dye slowly. Do not flood the fabric.
- Extra dye runs off and muddies color.
- Then flip the shirt and repeat on the back.

5

BAG + LET COLOR SET

- Place the dyed shirt in the provided bag. Keep it sealed and damp.
- Let the color set about 24 hours at room temperature

6

RINSE, WASH + ENJOY

- Wearing gloves, rinse in cool water until runoff is mostly clear.
- Once clear, rinse with warm/hot water.
- Wash the shirt by itself with a small amount of detergent or a small splash of Dawn.
- Hang dry the first time. After that, treat it like a normal shirt. Enjoy!
