

ICE DYE

INSTRUCTIONS

No guessing. Less mess. One-of-a-kind color.

thecolorlabco.com

1

UNPACK + GLOVES

- Put on gloves before touching dye, ice, or the shirt.
- Remove the shirt from its packaging and unpack the kit pieces.

2

KEEP DYE POWDER DRY

- For ice dye, do not add water to the containers.
- Keep dye powder dry until it is sprinkled over the shirt.
- Use bagged ice or city/tap-water ice.
- DO NOT USE ICE FROM WELL WATER.

3

FOLD + SET IN BAG

- Shirt comes pre folded, place in provided bag.

4

ICE + ADD DYE

- Cover the shirt with dry dye, especially areas you want dyed.
- Add in your ice. (~2 cups of ice)
- Avoid breathing dye powder.

5

BAG + LET COLOR SET

- Let ice melt completely in room temperature air.
- Carefully add more ice as needed.
- Optionally drain excess liquid as needed.
- Keep sealed and damp about 24 hours at room temperature.

6

RINSE, WASH + ENJOY

- Wearing gloves, rinse in cool water until runoff is mostly clear.
- Once clear, rinse with warm/hot water.
- Wash by itself with a small splash of Dawn.
- Hang dry the first time, then treat it like a normal shirt. Enjoy!
